Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1 and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by Kenichiro (JP10-324019).

Kenichiro shows a apparatus for outputting a laser beam comprising: a laser beam source (21,22), a laser beam diameter adjusting means (29), a laser beam reflecting direction controlling means (23) and a recording means (11). Kenichiro also discloses a first optical system (31) arrange on optical path between the laser beam source and laser beam adjustment means and a second optical system (32) arrange and optical path between the laser reflecting direction controlling means and the recording means.

Response to Arguments

5. Applicant's arguments filed 8/6/03 have been fully considered but they are not persuasive.

In response to the applicant argument that Kenichiro fails to disclose a laser beam adjusting apparatus is noted.

However, the applicant specification defines the laser beam adjustment means as "a laser beam diameter adjusting means comprises: a piezoelectric/electrostrictive film

type element comprising: a substrate, a piezoelectric /electrostrictive operating section integrated onto the substrate, and a reflective surface associated with the Piezoelectric/electrostrictive film element.”

Kenichiro clearly discloses the laser beam adjustment means in fig.1b. comprising: a piezoelectric/electrostrictive film type element 29: a substrate (27) having a reflective surface associated with the piezoelectric/electrostrictive element which controls the laser beam(fig.b1) and luminescence interval.(see 1800 line 1-12).

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
